THE INTERFAITH SEMINARY

'Serving all with an open mind and a loving heart'

♥ Whatever our belief, be them spiritual, religious or non-religious, a ceremony, in any form, is a powerful way of honouring and releasing a departed loved one from our lives. A carefully planned ceremony provides the opportunity to create an authentic reflection of who the person was as an individual, of their achievements in life and as a celebration of their life. It is also very helpful in the grieving process.

♥ Your personal ceremony can be as long, as you feel is right, can include contributions from anyone that would like to be included, along with favourite pieces of music, readings and any other personal preferences or beliefs. It can be as spiritual, religious or not, as you would like.

♥ Upon request I will meet with you, and family members too if required, to talk about your personal wishes for your loved ones service. I try to capture the essence of the person who has died and to help you put that into a heartfelt service, that feels right for you, and hopefully in the way they would have liked too.

♥ Memorial ceremonies may be held almost anywhere and can be created to suit your specific requirements. Memorials are particularly helpful when it has not been possible for everyone to attend the funeral.

♥ A ceremony can also be arranged to accompany the scattering of ashes and can be held in a special place.

♥ I aim to provide for you a personal and meaningful ceremony, dedicated to suit your wishes. Please call me anytime with any questions you may have.
